Concept & Design by:

CONFERENCE OVERVIEW

Excellent opportunity to reflect and have a reality check, thereby helping you to redefine the strategies and subsequent actions required for the next era. The world is experiencing new shifts; be it politics, technology or economy. The shifts and transformations will redefine the business environment, functions and expectations of stakeholders. Without doubt, professionals and organizations will have to anticipate, reassess and adapt. In CFO Conference 2017, leading industry experts and business professionals will connect the dots and provide the impetus needed to shape the future, inevitably pushing the professionals to think differently, leverage on their experiences and reflect on their leadership styles.

Keeping in view the same philosophy, CFO Conference 2017 is themed as 'Shaping the Future, Connecting the Dots: Learn-Leverage-Lead' bringing a new perspective to the audience, enabling them to reflect and pragmatically reshape their organizations and functions.

About ICAP

The Institute of Chartered Accountants of Pakistan (ICAP) established under The Chartered Accountants Ordinance, 1961 is a self-regulatory body of professional accountants in Pakistan. It represents accountants working in public practice, business and industry, education and public sector.

ICAP professionals are spread across the globe and are in high demand due to their professional competence, high work ethics and drive for professional excellence. Initially on the Institutes' establishment, there were a handful of accountants, however, today the number is around seven thousand five hundred, and out of this more than 70% are employed in industry. The Institute is fully cognizant of the obligation it carries towards its members and is committed to provide them with wide array of opportunities for continuous professional development.

www.icap.org.pk

About ICAP PAIB Committee

Professional Accountants in Business (PAIBs) constitute over 70% of ICAP membership. They work in various roles as business and financial leaders, strategic partners and advisors to create sustainable value for their organizations. The PAIB Committee of the Institute endeavors to serve this large membership segment – by engaging them, helping them in their professional development and highlighting their great contribution to the economy as creators, enablers, reporters and preservers of value for the organizations they work for. ICAP PAIB Committee has got strong connection with IFAC PAIB Committee. In lieu of our active participation and contribution, Mr. Yacoob Suttar (Council Member and Past President, ICAP) was nominated as Deputy Chair of IFAC's PAIB Committee consecutively during the last two years. Mr. Khalilullah Shaikh, Vice President South & Chairman ICAP PAIB Committee now represents the Institute as a member at IFAC PAIB Committee.

Recently, IFAC PAIB Committee has approved a guidance document for professional accounting bodies across the globe on how to engage PAIBs and establish successful PAIB Forums. The inclusion of ICAP PAIB Committee as an inspiring case study in that document is a strong testament of its global recognition.

About CFO Conference

Eight years ago, the PAIB Committee of ICAP took this initiative to reach out to Institute's members in industry and provide them with a platform to discuss, debate and seek pragmatic solutions of emerging business and finance issues.

Till now, 14 CFO conferences have already been held across the country with participation of over 7,000 participants, business leaders and finance professionals. The Conferences continue to be the most sought after platform for professionals to share expertise, build knowledge and network. The distinctive themes, relevant topics, eminent speakers and enthusiastic participants are the *raison d'être* of continued success of CFO Conferences. Since the last two years, the Institute has been organizing the Annual ICAP Middle East Conference in Dubai.
